John E. Devereux – Willingness to Serve Form - BellaVita HOA – Board of Directors

Theresa and I moved to BellaVita in April 2003. At that time, organized day time activities at the club house were almost non existent. We started Water Aerobics, Stained Glass and helped start a Bridge group. I am still active in these programs.

For thirty five years, I was a Project Engineer for Shell Oil Company. I was responsible for preparing and justifying cost estimates, developing project budgets, bidding and awarding contracts and executing the plan on schedule and within budget. My work experience can be applied to operating BellaVita HOA.

For the past 18 months, I worked on the By-Laws and Transition Committees. I am familiar with the Articles of Incorporation, the Declaration of Protective Covenants and By-Laws of both the BellaVita and Villa Master HOA.

Judge me by my record. For the past six years, I have worked to bring the good life to BellaVita. I believe in health and wellness programs, developing a caring community, and providing programs and activities for active adults. I listen, I observe, and I work to build consensus through out the community before launching new programs or establishing policy.

I have given considerable time and effort into building the good life for the homeowners at BellaVita. But the work is not complete, I want to continue to work and serve BellaVita as a Director on the BVHOA Board.

Thank You.
