6:30 - 10 pm
Tickets \$20
Available @the front desk on
April 10

Fajitas, Rice, Beans with
all the trimmings,
Margaritas and Music!

www.postermyid.com

Travel Group Cancelled for the month of May!

It's time for "Cabaret"
choir practice! The
ballroom is scheduled
as below, from 7-9 pm
and the music is here,
so please mark your
calendars & let's have
some fun!

30

April - 10, 17 & 24

May - 8, 15, 22 & 29

June - 5, 19

June - 23 (dress rehearsal)

June 24 (concert)

The Bella Vita book club has chosen two books for the May reading. **Demon Copperhead** by Barbara Kingsolver is a long and gritty book about Appalachia and a young man's problems growing up poor there. Some members thought it was a rough read so we are also offering an alternative choice:

The Lonely Hearts Book Club by Lucy Gilmore was a book of the month club selection at Barnes & Nobles and will also be discussed at the May meeting.

The book club will meet in the Annex on Thursday, May 11, at 1:00 pm.

As always, everyone is welcome for a lively discussion, led by Gerry Bartlett this month.

The advertisement for water aerobics classes features a photograph of a man and a woman in a swimming pool. The man is in the foreground, shirtless, holding two blue water dumbbells. The woman is behind him, also holding yellow water dumbbells. The background is a bright blue pool. To the right of the photo, the text 'WATER AEROBICS' is in large, white, bold letters, and 'classes' is in a large, orange, cursive font. Below this, there is a white box containing text about the classes.

WATER AEROBICS
classes

Exercise without adding stress to your joints! **NO EXPERIENCE IS NECESSARY!** Spread the word!

WEATHER PERMITTING, classes will begin on Monday, May 1st. We'll be watching the temps closely. IF the temp is less than 70*, class will be cancelled.

For the early risers...8:30am

Pearland Animal Shelter

The Belles will be sponsoring a collection for Pearland Animal Shelter during the month of May. Our BellaVita residents have always been very generous for this worthy cause and we hope this year will be no exception.

<u>They especially need:</u>	<u>Also need:</u>	
Kitten and Puppy food	Leashes	Towels
Dog and Cat food	Dog collars	Dog beds
The cheap non-clumping clay cat litter	Animal shampoo	Dog & Cat treats
	Aluminum Food Bowls	Toys

There will be collection boxes by the front desk and a list of items that the Animal Shelter would really appreciate. The Animal Shelter may also have Bunnies, Birds and other species at any given time.

Monetary donations are also appreciated, please make checks payable to: "The BellaVita Belles" and write Pearland Animal Shelter in the memo section of the check. At the end of the collection, the Belles will write a check for all of the monetary donations to the Animal Shelter. We will deliver all of the donations to the Animal Shelter in June.

We are also planning to have a photo competition that you can submit pictures of your pets, for a small fee. We will add the information for this in the next Newsletter.

We thank you for your participation and look forward to giving our local Animal Shelter a helping hand, as we have done for the past several years. Every donation is greatly appreciated.

If you have any questions, please contact:

Genie Dunnage 281-481-3289 or Cindy Simmons 281-484-9900

BIRTHDAY CAKE

Invitation Only!!

If your birthday is in MAY and you did not receive an invitation please contact the front desk or Carolina at Carolina.garcia@inframark.com

CHILDREN'S POOL HOURS

● All Holidays from 1-6pm

● Tuesday & Thursday 3 - 6 PM

● Children must have visitor wrist bands (see front desk)

● Saturday & Sunday 1 - 6p.m.

● Children in Diapers must wear swimming diapers

Please note: Floats are not permitted in the pool per BellaVita Rules and Regulations, Section 15; L. However, flotation noodles are permitted. Thank you for your attention to this matter.

CHILDREN MUST BE SUPERVISED BY ADULT

Pool Rules

- All BV Homeowners/Residents or other authorized user must observe pool signage of rules and hours of operations. Pool gates must remain locked always no propping open of the gate. Scheduled pool classes have priority during reserved times.
- No lifeguard on duty. SWIM AT YOUR OWN RISK!
- Emergency phone is in the pool area over by the drinking fountain. When emergency phone is activated, its connects directly to 911 Emergency Operator
- Visitors and children using pool and/or pool area must be accompanied by a BV Homeowner/Resident using the pool and/or area. No more than 10 visitors per household unless approved from Clubhouse Manager. At least one adult per 3 children under the age of 12 is required.
- Showers are recommended before entering the pool.
- No glass items permitted in the pool or spa area. BV Homeowners/Residents and guest are required to clean up their area when finished.
- No diving, jumping, running or horse playing is permitted. No climbing, sitting or jumping from any water feature in the pool areas is allowed.
- All BV Homeowners/Residents or guest who do not follow the rules may be subject to loss of pool area privileges.
- If feces are found in the pool, any resident should. 1) Advise everyone in the pool that the water is contaminated, and the pool must be vacated. 2) Notify staff if available 3) If not available put closed sign on pool and call manager .
- Flotation devices are not permitted at anytime. Flotation noodles are acceptable.
- No reserving of chairs or lounges. One chair or lounge per person
- Proper bathing attire only. No cutoff or frayed attire permitted.
- During a thunderstorm the pool will be closed.
- No pets in pool or deck area.

Blue Ribbons for Child Abuse Prevention Month

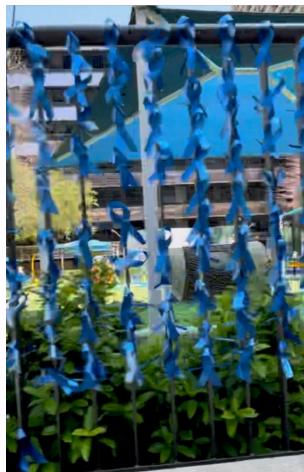

April is Child Abuse Prevention Month at Texas Children's Hospital here in Houston. The hospital places blue ribbons on the fencing all around the hospital to help increase awareness of the 10,000 children in the Houston area who are confirmed victims of abuse each year.

The BellaVita Sewing Group is supporting this effort for the second year by preparing blue ribbons! The daughter of one of our members, Nancy Bouman, is a Child Life Therapist at Texas Children's Hospital and provided this opportunity for our assistance.

The photos below show some of our members working to make as many ribbons as we possibly could and just how the ribbons look on a small section of the hospital fence! This activity emotionally supports the children, the families, and the hospital staff. We wish there was no reason for making the ribbons, but we are more than willing to help increase awareness.

Making the Ribbons

Ribbons on Display at Texas Children's Hospital

COMPUTER BATTERY LIFE

Laptops have become an essential tool for our everyday lives. One of the most significant concerns with laptops is their battery life. Many people use their laptops continuously while it is plugged in, and they often wonder if it is safe for the battery to be always connected to the power source. In this article, we will discuss the effect of continuous charging on the laptop battery.

The first thing to understand is that all batteries have a limited lifespan. The number of charge cycles that a battery can endure before it starts to degrade depends on the type of battery and its usage. Most modern laptops have lithium-ion batteries that can last for 300 to 500 charge cycles. After that, the battery starts to degrade, and its capacity to hold a charge decreases.

Continuous charging can have an effect on the lifespan of the battery. When a laptop is plugged in and charging, the battery is constantly being charged and discharged. This process generates heat, which can damage the battery and reduce its lifespan. High temperatures can also accelerate the aging process of the battery, which can cause it to degrade faster.

Another issue with continuous charging is that it can lead to overcharging. Overcharging occurs when the battery is fully charged, but the charging process continues. This can cause the battery to overheat and damage the internal components. Most modern laptops have built-in overcharge protection that stops charging the battery when it is full. However, this protection may not work correctly in some cases and can lead to overcharging.

One solution to avoid the effects of continuous charging is to remove the battery from the laptop when it is plugged in. This way, the laptop will run on AC power, and the battery will not be subjected to continuous charging. However, this solution is not practical for most laptop users because it requires them to remove and replace the battery every time they want to use the laptop. Another solution is to use the laptop's power management settings to control the charging of the battery. Most modern laptops have a setting that allows users to limit the maximum charge level of the battery. This setting can help prevent overcharging and prolong the lifespan of the battery. In addition, some laptops have a feature that allows users to switch between battery power and AC power automatically. This feature can help prevent continuous charging and allow the battery to discharge and recharge naturally.

In conclusion, continuous charging can have an effect on the lifespan of the laptop battery. It can cause the battery to overheat, which can damage its internal components and reduce its capacity to hold a charge. However, most modern laptops have built-in protection against overcharging, and users can also use power management settings to limit the maximum charge level of the battery. By following these tips, users can prolong the lifespan of their laptop battery and ensure that it continues to perform optimally.

SNAKE SEASON

It's Snake season again! For the next 4-6 weeks we will start seeing snakes out in the open, in our yards, along the lake and along the clubhouse creek. Why is this happening? The snakes are waking up from winter hibernation, entering into mating season, looking for food and are looking for warm spots to sun. As reptiles they do not have the ability to control their internal temperature so they like to lay on warm rocks or concrete. After about 4-6 weeks, the ambient temperature will begin staying at or above 70 degrees and they will no longer need to sit out in the open to warm themselves.

The majority of the snakes that we will encounter will be non-venomous banded water snakes. The most common and infrequent venomous snakes in BV are: 1) the slender, colorful banded coral snake (they like leaf litter), 2) the tan and brown copperhead (they also like leaf litter), and 3) the dark, chubby water moccasin (will be in areas close to water). Water snakes can look similar to the water moccasin, but a water snake will have a long, tapered tail and vertical stripes on its lower mouth; whereas, a water moccasin has a short stubby tail and no vertical stripes on its mouth. Looking at the shape of the head is the least reliable way to determine if a snake is venomous.

If snakes are in your yard, they are seeking food and/or warmth. They don't just wander around. They use heat sensors in the nasal area to identify food sources, such as mice, rats, baby bunnies, baby opossums, frogs and even birds from time to time. They will also seek out warm spots, such as concrete or porches.

The best way to keep snakes out of your yard is to remove all food sources or things that attract food sources, such as bird seed and dog poop. Spraying your yard or porch with a nontoxic snake repellent (available at Home Depot) can help because some snakes have a very sensitive sense of smell. The best way to get a snake to leave your yard is to spray it with your water hose. Remember you can put yourself at risk of being bitten if you reach in to kill the snake because you are putting yourself within striking range.

This photo shows a good comparison of the heads of a water snake VS a water moccasin (aka cottonmouth).

What is the ROSE Award?

ROSE is an acronym for Recognition Of Serving Extraordinarily.

The ROSE Award is the highest award presented by the BellaVita Homeowners Association. It was developed to recognize efforts by a resident who volunteered and contributed significantly to the overall improvement of the community as well as positively impact the quality of life in BellaVita.

Based on the ROSE Award criteria, the Rose Award 2022 recipient, Danny Koons..... He has served on HOA Committees, HOA Clubs, Special Events, HOA Special Projects , as well as many BV club events. With all his volunteer participation the recipient has provided valuable ideas, has helped identify solutions which has benefitted and improved the community. Danny has exhibited a high standard of professionalism, extraordinary efforts above and beyond regular assignments while enhancing the BV community spirit.

Danny and Cathy have lived in BellaVita since 2018. Danny jumped right in after moving to BV and got involved with community activities. Professionally Danny was the Construction Superintendent over capital projects at the Deer Park and Bayport chemical plants. He has brought BellaVita his knowledge and expertise that has benefitted our community in so many ways.

Since moving to BV, Danny has jumped right in by volunteering with the Men's Club activities always visible in setting up, serving food, and doing anything he can to assist with events. In 2021, he joined the Facilities Committee. He is in charge of pool maintenance and since then he checks on the pool and spa frequently. He is a highly respected technical resource for BV. In fall of 2021, Danny did a yeoman's job on the pool rehab. He served as a supervisor for the resurfacing of the pool. He knows how important the pool is to BV residents. With his focus on this project, he ensured that all residents will enjoy the pool and spa. Also, he is a BV Flag Team captain. You would think Danny was busy enough with all these responsibilities/projects but he wanted to give more to our community. Danny ran for the HOA Board and was elected to serve in March 2022.

In addition to all the above, Danny continues to volunteer and brings his expertise to BellaVita.

For the Clubhouse Roof Project, Danny took the lead role in seeking and finding a professional roofer familiar with the type roof for the clubhouse. He worked closely with the roofer to determine the need for repair rather than replacement. The cost of repair was approximately \$30,000 vs. a replacement cost of over \$200,000. What a savings for BellaVita!

Also, Danny is a key member of the Scarsdale Wall Task Team and the field representative for the project. He participated in the identification and selection of the wall contractor.

Some would think this is a full time job, but no, Danny continues to find time to be an instructor at the Construction and Maintenance Education Foundation. He teaches Project Supervision on a part time basis in Deer Park. True volunteerism, always a desire to give back to his community inside and outside of BellaVita.

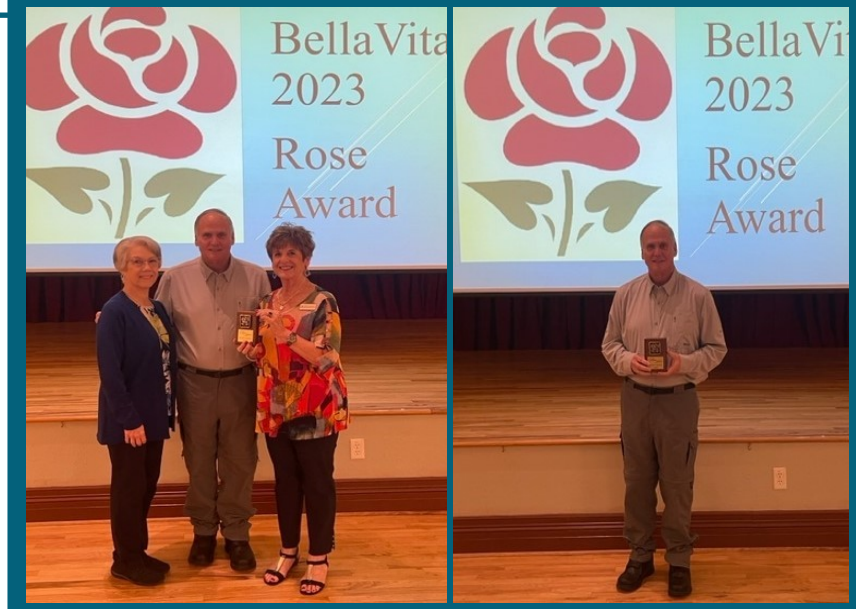

With all of this on his plate, he and Cathy decided it would be fun to teach Country Western dancing recently. As many of us know, it was a big success.

Danny is a man who likes to stay engaged as we can see from his contributions to BellaVita.

He has done an incredible job in all his volunteer efforts. Danny is the true definition of what it means to be a Volunteer who goes above and beyond. He deserves to be among the distinguished and deserving recipients of the ROSE Award.

Please congratulate Danny on his outstanding contributions and recognition as the Annual 2022 ROSE Award Recipient.

2nd Pam Halloran – Theresa Devereux

Thursday, April 27,

Howell Movement

1st Ann Sharp – Riussell Pryor

2nd Joyce Wormser – Joyce Garner

3rd Theresa Devereux – Connie Harry

4th Nancy Hudson – Carolyn Beeson

Duplicate Bridge is a partnership game played on Tuesdays and Thursdays.

Interested players may reserve a spot by calling Lyle Ganucheau in advance.

Your HOA dues include having your front door maintained every 2 yrs. as needed. This means the door will be lightly sanded and a coat of spar varnish will be applied. A new weather strip on the bottom of the door is included, if needed. This will help to protect your door. However, if you postpone or do not request having your door serviced and it requires having your door refinished, the HOA will only cover a portion of the cost to refinish and replace the weather strip. The HOA will pay a maximum of \$210.00 (the cost to the HOA for regular maintenance

plus a 2nd coat of varnish). You will be responsible for the remaining cost of the door service. Please note if there is a homeowner cost it will have gone up from previous years as well. It is your responsibility to call and have it serviced every 2 years. Please call or come by the Clubhouse at 281-464-3150 before October and get on the schedule. The doors are serviced March through October.

Newsletter Information

* Deadline for newsletter entries & articles is Monday at Noon, No Exceptions

* Please send entries & articles to Shannon and Carolina at Shannon.boogades@inframark.com & Carolina.garcia@inframark.com
